Publishing House Purana is a independent publisher in Poland of nonfiction books in the fields of alternative medicine, nutritional health and cookery. Founded in 2001, we are committed to innovation, design, editorial excellence and imagination, creating unique books for today's readership. Our mission is to offer titles that help people reach optimal health through better nutrition and natural therapies for illnesses. The part of our activity is to take part in health and ecological fairs with our bookstall. There we have a nice opportunity to promote the new titles and directly meet people who are open for nonviolent style of life.
